Wild Toronto: Maple Battle

Wild Toronto is a bi-weekly comic strip about the animals and plants that make a living in our city. Thanks to the [Toronto Tree Tours](#) for help with this week's comic.

Brought here for parks, Norway maples are now spreading because of hefty advantages:

- fast spreading
- pollution tolerant
- salt tolerant
- block light with big leaves

Always informative, interesting and with a touch of whimsy.

Could this be read as a metaphor for our hockey team? Sugar maples were on top for a long time, but now they have been unseated.
