

## Toronto Tree Tours

AND **Danforth East Community Association**

host

### **Danforth East Neighbourhood Tree Tour**

**Sunday May 25, 2008**

**2pm to 4pm**

Starting at: **Woodbine Subway Station**

This tour, led by arborist Todd Irvine and local activist Mary-Margaret McMahon, will explore the charming eco-friendly Danforth East neighbourhood. Admire the massive canopies of the many historic white and red oaks that spread over the quaint homes below and discover why they are so prominent in this area. Hidden among the predominating oaks, we will also find other interesting native tree species. As we meander through the shady streets south of the Danforth, we will learn of the challenges facing the urban forest and how local tree planting and conservation initiatives are re-invigorating the entire neighbourhood. From greening projects on TTC property to motivating local businesses to care for street trees, this community has a shared vision of a greener future.

Space is limited so please **RSVP** at [www.treetours.to/event/danforth-east-tree-tour](http://www.treetours.to/event/danforth-east-tree-tour)
