

Local Enhancement and Appreciation of Forests

siting worksheet

Things to think about:

Where would you like shade?

Where do you use your backyard the most?

Where do you walk the most in your backyard?

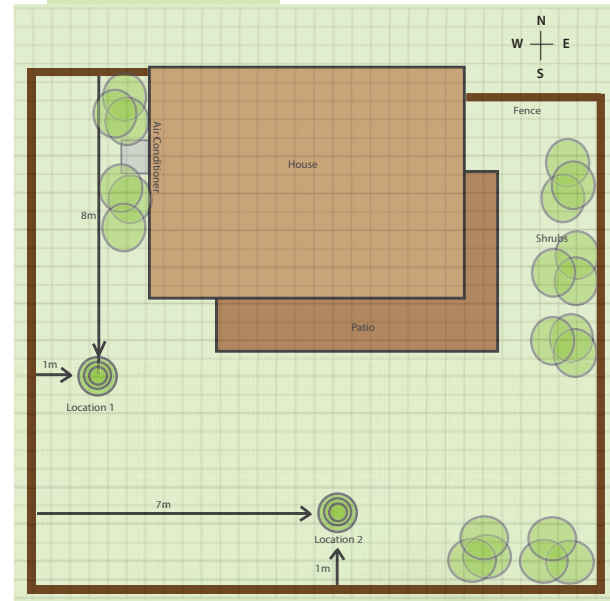

Spacing Considerations:

- 3m (10ft) from foundations
- 2.4m (8ft) from hard surfaces
- 6.1m (20ft) from other trees
- 1m (3ft) from fences

Things to include:

House, fence, patio, trees, shrubs, stumps, overhead wires, play places, property lines, A/C unit, irrigation system, underground wires

Example.

Circle one for each category

Soil Type

- Sandy loam
- Clay
- New development

Preferred Height at Maturity

- Large (12m / 40ft+)
- Medium (8-12m / 26-40ft)
- Small (4-8m / 12-26ft)

Available Sunlight

- Full sun (6hrs)
- Partial sun (2-6hrs)
- Shade (<2hrs)

Species Choices

Location one

- _____
- _____
- _____

Location two

- _____
- _____
- _____
