- mulch

Additional shrubs which complement a butterfly kit - \$25 each delivered

- meadowsweet (*Spiraea latifolia*)
- bush honeysuckle (*Diervilla lonicera*)
- spicebush (*Lindera benzoin*)
- large white flower stalks which attract many butterflies
- yellow tubular flowers which bloom throughout the summer
- early nectar source and host plant of the spicebush swallowtail

Additional trees which complement a butterfly kit - call 416.413.9244 for a consultation

- eastern redbud (*Cercis canadensis*)
- paper birch (*Betula papyrifera*)
- hackberry (*Celtis occidentalis*)
- basswood (*Tilia americana*)
- early nectar source with beautiful purple-pink flowers
- excellent host plant for many species of butterflies
- small flowers attract many butterflies including the rare hackberry butterfly
- fragrant flowers provide an important nectar source and pleasant aroma
