

2014 Annual Report

2014 was another eventful year for
LEAF...together we accomplished some
amazing things!

We held another successful Leslieville Tree Festival that attracted over 500 participants

We planted 1261 native trees and shrubs in
backyards across Toronto and York Region

We expanded our Full Service planting program to the northern municipalities of York Region...this means we now plant as far north as Lake Simcoe!

We received the 2014 Health Champion Award
from Toronto Board of Health

We planted 350 native trees and shrubs in Dean Park
with Toronto Hydro employees and their families

We reached over 2,500 individuals at the
70+ outreach events we attended

We partnered with the City of Toronto and local designers on the Maple Leaf Forever wood project

We held a 100in1Day intervention at our Spadina Demonstration Garden, planting milkweed and other perennials with the community

We painted a new mural next to the LEAF Learning Garden thanks to our amazingly talented volunteers!

We hosted 17 Tree Tours
with over 790 participants

We trained 83 individuals as Tree Tenders,
giving them 15 hours of arboriculture training

We helped 4 Friends of Parks groups start their own Adopt-a-Park-Tree programs in their communities

We planted 300 native trees and shrubs at Marita Payne Park in Vaughan with PowerStream and Ontario Power Generation employees on National Tree Day

With generous support from Lifford Wine & Spirits, we undertook a post-ice storm fundraising campaign and raised \$13,000 for LEAF's Urban Forest Fund

We engaged 46 Garden Steward volunteers to care for our 6 Urban Forest Demonstration Gardens located outside TTC stations

We had an amazing time at the BFF Social, celebrating our successes with the wider LEAF community

THANK YOU to our volunteers, program participants, donors and supporting partners for a wonderful year!
